H.J. Stauble Ltd.

Trinidad

Attention: Mr. Anil Nagassar

Re: **H.J Stauble recommendation**

To whom it may concern

During the AP3 project, the H.J. Stauble team provided continuous support to ECS team. The support provided included the procurement of offshore team for the work on several BHP platforms and some spool and clamp fabrication.

The Team members provided by H.J. Stauble were instrumental to the success of the project. The multi competency profile of the team allowed ECS to accommodate the strict limitation of POB imposed by our client. All team members were competent in several field and worked hard despite difficult work site conditions.

All fabrication scopes were completed with a level of quality perfectly satisfactory despite very high pressure from the schedule. The reactivity of Mr Nagassar and his team was impressive and support was offered at any time of the day or night

Should there be any questions or concerns related to this matter, please contact the undersigned.

Sincerely,

Nicolas Rusch

Operation Manager
